## Description

If you're looking for the ground covering performance and the outstanding efficiency you've come to expect from Timberwolf, the TW 280FTR 8" capacity fixed tracked wood chipper will get in and get the job done.

Kitted with our patented exhaust cooler reducing exhaust temperatures by up to 300°C.

With a powerful Kubota WG1605 petrol engine, the largest infeed in its class and our WolfTrack® Fixed Track Dual Speed Tracking System, operator comfort and safety is engineered in harmony with power and efficiency.

The WolfTrack® Fixed Track Dual Speed Tracking System has a low speed gear to negotiate difficult terrain and a higher speed gear to cover distance efficiently. The comfort of the operator is assured with conveniently mounted dual position electronic engine throttle controls and a low vibration, ergonomically designed operator platform.

The TW 280FTR has a ground clearance of 245mm to tackle uneven surfaces and its wide, smooth running tracks and low centre of gravity enhances stability on different gradients.

## Features

WolfTrack® Fixed Track Dual Speed Tracking System

7+ tonnes/hour throughput

Quad force rollers

280° adjustable discharge

280mm x 210mm Feed Opening

Average chip size 19.5mm
