Serial Number	

Description

The TW 280VGTR is a powerhouse 8 inch capacity wood chipper with the strength to complete even the toughest jobs in the most remote locations.

With safety and ergonomics at its heart, the TW 280VGTR features our innovative WolfTrack® variable gradient tracking system. Using heavy duty twin arms to support each of the wide, smooth running tracks, the operator has dynamic control over track width, ground clearance and machine tilt angle providing greater control and comfort, particularly whilst navigating uneven and sloping ground up to 30 degrees.

Designed with the user in mind, the TW 280VGTR has a low vibration and ergonomically designed ride on platform for ultimate comfort and safety. There are also additional safety controls, such as reverse feed rollers overriding the stop bar or the carefully positioned air filter intakes to draw in cool, dust free air.
Features

- Kubota 57hp Petrol Engine
- Wolftrack Variable Gradient Tracking System
- 7+t / hour throughput
- Quad force rollers
- twin hydraulic rollers with auto feed control
- 280mm x 210mm feed opening
- 2 quick access double sided blades
- Average chip size 19.5mm
